

Our Open Source WanCenter and Linux solutions can do IT all...

WanCenter is a methodology which focuses on the real issues of IT infrastructure support i.e. keeping IT up and running so that it can be “seen and not heard”. We see IT as a necessary tool; as an asset and not a liability. Investing in the wrong tools can be a costly mistake. Traditional products offering proactive IT monitoring can be very costly and contain esoteric features, which most IT departments do not need. What they do need is **WanCenter**.

WanCenter is a highly cost effective solution which monitors 99 percent of the IT infrastructure critical to normal business operations.

For those that have already spent a fortune on products such as Tivoli, Unicenter, or Patrol, ask yourself: Am I truly getting my money’s worth? Is the job really getting done? Chances are your staff is overwhelmed by the complexity of options and don’t have the extensive amount of time needed to make it truly useful.

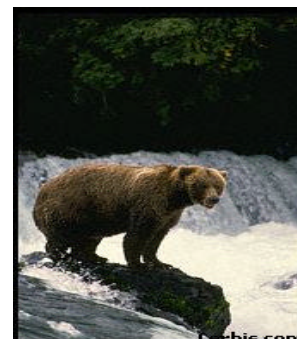

In less time than a week and for less than the annual maintenance cost of owning any of those other high profile products, **WanCenter** by MSCS will not only cost you less but, our staff can do the job for you, so your staff can focus on their priorities.

Don’t have an IT staff? Only need a part-time staff? We can help take care of that too!

MSCS offers “partial” or “full” IT outsourcing solutions which can utilize VPN technology and **WanCenter**. Ask us about our “co-sourcing” solution. Properly utilized, this service could fulfill your IT support needs completely! Unlike other outsourcing companies, MSCS can offer highly skilled personnel to be on-site when needed . Ask your sales representative for more information.

**IT’S
9:00AM.**

**IS YOUR
NETWORK
UP?**

WanCenter keeps IT on the right Path.

P.R.I.D.E

The virtues of having **P.R.I.D.E.** supports the culture of our Mission and Vision. To this end, we must consistently exercise its qualities:

- P**erformance - Always strive to exceed customer expectations.
- R**eliability - We must always exercise the virtues of Punctuality and Dependability.
- I**ntegrity - Without which our future would hold no fulfillment.
- D**edication - We are dedicated to customer satisfaction and strive to be the best at work and life.
- E**xpertise - To continually hone our skills to give each customer at least a dollars worth of productivity for a dollars pay.
